#### KLONDIKE (From Imperial Valley)

The seed is small. One pound of Klondike will number as many seeds as two pounds of other varieties. The color of the seed is brown, mottled black—Pkt. 10c; oz. 20c; ½ lb. 50c; 1 lb. $1.75. Postpaid.

### Onions

CULTURE—100 to 120 days. 1 oz. for 100 ft. of row; 6 lbs. for 1 acre. For sets, 60 to 70 lbs. of seed should be sown to the acre, more if the ground is light. Sow the seed early in spring as soon as the ground is in working order, not sticky. For pickling and for early green onions, such sorts as Ailsa, Craig, Prizetaker, and Bermuda, are sown in hot beds and later transplanted into rows.

The seed is small. One pound of Klondike will number as many seeds as two pounds of other varieties. The color of the seed is brown, mottled black—Pkt. 10c; oz. 20c; ½ lb. 50c; 1 lb. $1.75. Postpaid.

### Onions

CULTURE—100 to 120 days. 1 oz. for 100 ft. of row; 6 lbs. for 1 acre. For sets, 60 to 70 lbs. of seed should be sown to the acre, more if the ground is light. Sow the seed early in spring as soon as the ground is in working order, not sticky. For extra large and heavy bulbs, such sorts as Ailsa, Craig, Prizetaker, and Bermuda, are sown in hot beds and later transplanted into rows.

TESTIMONIAL

MILOT-MILLS CO.

Gentlemen—Vegetable seeds purchased from you last year enabled me to have the finest garden I ever had. Yours truly,

THOS. JONES,
Entiat, Washington.

Field Seeds

Grimm Alfalfa

This is probably the best known and most talked of variety. No other strain of Alfalfa is as hardy as true Grimm. Because of its extreme hardiness it is being grown extensively where winter killing is a serious factor. If you have a high water level or hard pan to contend with, Grimm is the proper type to use. Our Grimm comes in bags sealed and tagged under government supervision. This insures a true, genuine, Grimm type. Use 12 to 15 lbs. per acre.

Montana Alfalfa

Of all the common strains Montana grown Alfalfa seed is considered by all agricultural authorities to be one of the hardiest. As it is grown west of the Dakotas it is acclimated to the severe winters of that territory. Over a period of years the Montana State Agricultural College has shown in its test plots that Montana Alfalfa is the king of all common strains. Seed at rate of 15 to 20 lbs. per acre.

SOME FACTS WORTHY OF YOUR ATTENTION

Montana Alfalfa Seed is now recognized everywhere as being the hardiest of all Alfalfa and therefore the most consistent high yielder in hay tonnage.

SUDAN GOOD PASTURE CROP
Sudan grass used as a summer pasture crop made an excellent record during the drouth, according to records just compiled from data obtained at the Hamilton County Experiment Farm at Mt. Healthy, Ohio. A five-acre field of Sudan grass provided most of the pasture for a herd of 23 cows for a period of 61 days. The Sudan grass was sown June 14. 20 to 30 lbs. per acre are needed.

STANLEY'S BIRD REPELLENT
is one sure cure for troublesome birds. Not only birds, but moles, squirrels and all pests will leave your corn fields severely alone if you coat your seed corn with it just before planting. You don't have to wait for it to dry, and it positively will not clog the planter. It is not poisonous and therefore, will not kill birds or animals, but it WILL keep your corn fields free from damage that runs into money and time, if you have to keep replanting all the time. Large can, enough for 2 bushels of seed corn (8 to 10 acres), $1.50; half-size can, $1.00.

Fleming’s Egg Keep

Fleming’s Egg Keep is guaranteed to keep eggs perfectly fresh and fine flavored for nine months, or even longer, if necessary.

No Cold Storage, Musty or Stale Smell about them. They retain their natural sweet flavor. Think what that means! In this simple, harmless, tasteless, colorless, and reasonable priced product, the user has all the advantages of a fresh laid egg without the disadvantages of a musty, water glassed, oil processed, paraffine covered or cold storage egg. A positive prevention of mouldy, musty flavor common to all eggs stored about three or four months.

FLEMING’S EGG KEEP not only keeps the egg sweeter and more delicate in flavor with no visible evidence of having been artificially kept, but saves time on labor, costly equipment and machinery. In fact, it is so far ahead of anything ever discovered or invented that it has actually revolutionized the art of keeping eggs fresh.

The prices and sizes are as follows:

EGG KEEP is put up in two different size packages: 2 oz. and 4 oz. cans. Each can will put up 60 and 120 dozen eggs. Prices, parcel post prepaid to your address, per can $1.00 and $1.50.

Cel-O-Glass

Is sold in rolls 3 feet wide and 28 inches wide and in any length up to 100 linear feet. It is used for storm doors, windows, hot-bed sash and in fact anywhere you would use glass. **The New Vogue Is for Color**

Color and lots of it is today’s fashion in the home ground planting. Color everywhere is possible only with extensive planting of those things which provide it—Shrubs, Vines, Bulbs, Annuals and Perennials. Each has its place in the modern landscape treatment.

Modern homes are set in modern gardening—and prospect planting can give any older house a new and modern charm. Now front yards are open and inviting, with plantings massed to mark the borders of the plot and frame the sweeping view of velvet lawn. Trees and foundation planting are so placed to frame, not hide, the house and make the home seem nestled softly into place.

Hardy Perennial Flowers
Including special types for Rock Gardens.

Color is the dominant note in today's gardening.
Yesterday we had advanced in gardening conception so that our back yards were at least decently clothed with green mown grass, and bound in by appropriate groups of flowering shrubs. That was splendid—so much better than the uncouth barrenness of service yard and rubbish places to common the day before. So now we are not content with green grass alone and the fringing shrubs, but demand color; all colors, and lots of each.

There is no other way to satisfy this desire and obtain a quick effect, than by planting flowers. Many delightful colorful beds can be established of "Annuals" raised from seed (or transplanted from supply commercially grown by others). Here is where the Hardy Perennials come into their own. Beautiful in a thousand types and expressions. Once planted they continue year after year with no further gardening concern beyond cultivation, cutting and thinning.

Hardy Perennials

Artemisia (Silver King)—A wonderful addition for your shrubbery or perennial border, forming a large compact mass of beautiful silver foliage. Fine for cutting. Price 20c, 25c, 50c each.
Aconitum (Monk's Hood)—Beautiful blue. Two shades from deep blue to lavender. Price 25c, 35c, 50c, 75c, 1.00 each.
Aubretia—Blue, violet and rose mixture. Produces great masses of bloom in early spring, fine for rockeries and borders, very hardy. Young plants 10c each; $1.00 per dozen.
Anchusa—A very hardy, vigorous growing plant, with large spikes of bright forget-me-not blue flowers. 25c and 50c each. 1 year old, 25c each; 2 year old, 50c each; small plants, 15c, or $1.50 dozen.
Caravanserai, New Hardy—This variety is of easy culture and produces enormous flowers, equal to any grown under glass. Colors: Red, rose, yellow, maroon and mixed. Strong young plants. 10c each; $1.00 dozen.
Columbine, Long-Spurred—10c each; $1.00 dozen.
Two-year Clumps, 35c and 50c each.
Cheiranthus (Allioni)—Perennial bearing gorgeous orange flowers. Height 12-16 inches. Charm ing in borders and rock gardens. 10c each.

Penstemons—Grows like Snapdragon, though it is more beautiful. Mixed colors. 75c dozen.

Yucca (Adam’s Needle)—A majestic plant, especially fine for producing tropical effects. $1.00 each.

Peonies

The Peony bears the first big flower crop of June and is a close rival of the Rose. While in season, it is more lavish in its bloom, and makes the more pretentious show, besides which it is harder and more easily cultivated. Peony blooms are very lasting when cut, and in most cases are exquisitely scented. Plant 2 to 3 feet apart in deep, rich well-prepared soil, covering the buds but an inch or two. Do not expect much of them the first year, as they are slow in establishing themselves.

The most natural time to plant Peonies is early in September, but early spring planting—March 15 to April 15—is just as reliable for establishing the plants.

Pink, white and reds, 3 to 5 eyes, in choice double, 60c each; 3 for $1.50.

Hardy Phlox

Lily Pools and Rock Gardens

Everybody is making rock gardens and lily pools these days. Even on the small lot there is some place where a tiny rock garden may be tucked away; the compactness of a rock garden is one of its charms. There is no end to the interesting combination of rocks and plants. Pygmy mountains, Lilliputian valleys, can be built of rugged rocks; a trickle of water pretend a mountain torrent, losing itself in a mirror pool.

Our Landscape Department is ever ready to take care of your needs in this work. We supply all labor and materials for a finished job, whether it may be formal or rustic.

Rocks, all sizes suitable for the particular size and location of your rockery, range in price from $3.00 to $5.00 and up. Bird Baths, 3 feet, $12.50 each. Tost Stools, 18 inches to 2 feet, $2.00 to $5.00 each. Mushrooms, Garden Seats, 2 feet, $3.50 or $5.00 each... Gnomes, brightly colored, $2.50 to $5.00.

"It's Not a Home Until It's Planted"

You will find listed in this catalog many seeds and plants you will need in planting your garden, both in vegetables and flowers.

If contemplating putting in a new lawn, avail yourself of the free service we offer. We will gladly tell you how to proceed; how and when to apply fertilizer, moisture, and sowing the seed, and the most particular part of all—the care of same till it becomes an established lawn; also how to renovate your old lawn.

Let us tell you about shade and ornamental trees, the kind to plant, and the proper location in your lawn. Shrubs and evergreens add wonders to a landscape planting. We can tell you where to plant them, and how they grow, relative to heights, etc.

Color! Color! Everybody wants color, and lots of it. This can be accomplished with the proper use of the many annuals, and perennials we have to offer, used in mass planting or single.

Rockeries and lily pools are all the vogue, and not necessarily an expensive addition to your planting. Ask us about them.

"Beautify your home by planting."

Our Landscape Department is always at your service.
